

LUSTON GROUP NEIGHBOURHOOD PLAN

Submission Draft Version

Examiner's Questions and Responses

1) Map 3 describes the housing sites as Potential Development Sites within the settlement boundary. It is customary to show housing sites as housing allocations or housing commitments. Would the QB confirm that they are agreeable to this?

Response: Luston Group Parish Council would like to keep the existing reference to Potential Development Sites as this is the terminology used locally and consulted upon during Regulation 16. It is intended to reflect the fact that development of the sites is ultimately the decision of the landowner(s), and that the number of sites in the plan will more than meet the minimum proportional growth guidelines in the core strategy.

2) Has the analysis of the Questionnaire Survey referred to in the NP been published? If so would you supply me with a copy.

Response: A copy of the survey findings can be found online at the bottom of <http://lustonparishes.gov.uk/neighbourhood-development-plan/>. A copy of the file is attached as well for the examiner's convenience.
