

Update on Local Plan Examination – Further Proposed Modification on Wind Energy

Dear All,

Further to our earlier notes on the Local Plan I can now advise that the Inspector has asked the Council to publish a further proposed modification. The need for the proposed modification stems from the publication of a ministerial statement last month on wind energy. A link to that statement is set out below for your information.

<http://www.parliament.uk/documents/commons-vote-office/June%202015/18%20June/1-DCLG-Planning.pdf>

There will be a single proposed modification and to Policy SD2 of the Local Plan. This modification will bring the policy into line with national policy.

The consultation process will start shortly and will run for a four week period. Full details will be made available on the Council's website at that time.
